and duties etc.

In the light of the above modifications there does not appear to be any need for appointing an Executive Engineer.

The Proceedings of the Meeting do not show why a Cadre officer is required at all., beyond a general remark that the Charge of a Sel Engineer is larger than that of an Ex Engineer in P.W.D. By itself. This may not constitute a sufficient reason

The Madras Corporation also seems to have moved in a better direction for having an engineering officer of higher status

The finances of the Blue Cat Mfty are by no means comfortable. Under the existing arrangement, the Supply Engineer's advice has been more available as noted at para 3 above. Large schemes like that for Sewerage and for reimbursement by the Engineer for the City Drainage, there is a separate division

For all these reasons, the proposal does not appear to be an unmixed necessity.

P.W. Secy may be consulted

Hm
23/3/42

Agreed. In view of the remarks made by the Secy P.W.D, there does not appear to be any need to post an Executive Engineer to the Port Office.

This view was however changed (vide Secretariat Diary No 2 of Dec 1941) and the file was closed on 26/3/42 (see 47/34)

In the limited file, the need should have been examined to select an officer out of the names of the three Executive Engineers for being posted to the Port Office.

Extract from the proceedings of the Special Meeting of the City Municipal Council, Bangalore, held on Wednesday the 25th February 1942

-- ooo --

At the outset, Mr L.S Raju observed that he had two very urgent propositions to move and requested the permission of the House to move the same The House having permitted the same, he moved the following -

"This Council resolves that the Government may be pleased to appoint an Executive Engineer in place of Mr D Govindappa, Municipal Engineer, proposed to be transferred "

While doing so, he observed that the jurisdiction of the Engineering Department was far wider than the jurisdiction of an Executive Engineer in the D.P W., that the work of the Engineer was rather heavy for an Assistant Engineer to cope up and therefore it was very necessary that they had an Executive Engineer at the head of their Engineering Department.

Mr.H C Suryanarayana Rao seconding the above said that while the Executive Engineers in the D.P W were given powers over projects of three lakhs of rupees on an average, the Municipal Engineer had more than this under his control, that even the jurisdiction was wider and so they may request Government to send an Executive Engineer

Mr W H Hanumanthappa further supporting observed that it was better they suggested a name of the Executive Engineer and opined that they may ask for the services of Mr B S.Narasinga Ra

The Commissioner informed the House that Mr B S Narasinga Rao was transferred very recently to Jog and that the chances of getting him here were rather remote and that they may give some names for being posted to the Municipality.

Then the proposition of Mr L S Raju was passed unanimously

Sd/- K. Hanumanthaiya,
Hon President

-- ooo --

Municipal Commissioner.

LAW SECRETARIAT

No. L 8729—M. 111-41-94, dated 6th January 1942.

In exercise of the powers vested in them under Section 284 A (a) of the Mysore City Municipalities Act, 1938, as amended from time to time, it is hereby notified that Government shall have power to appoint the Health Officers and Engineers in the City Municipalities of Bangalore and Mysore

By Order,
H. V NARAYANA RAO,
Secretary to Government,
Law Department.
